What may have been the third largest deer record in New York State and the 15th largest in the nation has been shot, but instead of getting a trophy, the hunter has been fined \$1,225.

The deer was shot a few weeks back in a restricted area. The buck was measured as having 23 or 24 points or tines on its antlers and weighed 255 pounds. The average deer has four to six points and weighs 150 pounds.

The Lakeland Chiefs will have another super buck next year in Junior Bob Hine.
